Battery performance is too poor. Be cautious.....

Reviewed in India on 24 September 2020

Verified Purchase

Please don't buy this pc. Though it has all features battery life is too poor. It lasts only for two and half to three and half hours that's it.

Even if you turn on battery saver mode ,same is observed.....

You will definitely feel regret after sometime of your purchase. Please don't waste your money plz 🙏.

I didn't expected this battery performance from hp pc.

Not very happy

Reviewed in India on 10 July 2020

Verified Purchase

I purchased this laptop after lot of comparison and when I received I was disappointed to know the product is made in China. It would be helpful for buyers to decide if the manufacturer information provided.

It looked like I paid 4000/- more than the actual price.
