An advertisement for the Microsoft Surface Laptop Go. The top left features the Microsoft logo and the text "Microsoft Surface". Below this, the headline "New Surface Laptop Go" is displayed in a large, bold, black font. Underneath the headline, the text "Get up to ₹80000 Cashback*" is shown in a smaller black font. To the left of the laptop, there is a black circle containing a white percentage symbol (%), followed by the text "No Cost EMI" in a bold black font. The central image shows a silver Microsoft Surface Laptop Go open, displaying a scenic landscape of rolling hills under a blue sky. The laptop is positioned on a white surface, with a white ceramic cup and saucer to its left. In the background, a white shelf holds a few books. At the bottom left, the text "*T&C apply" is written in a small, italicized black font.

From the manufacturer

Experience Uninterrupted Productivity

Amplified display: A brilliant FHD panel offers more brightness and vivid color for an enhanced front-of-screen experience, and a 2-sided narrow border emphasizes your screen while helping minimize distractions.

Express Charge: Take your battery charge level from 0% up to 80% within an hour¹ so you're not tied down to an outlet while working on the go.

Dell Mobile Connect: Experience seamless wireless integration between your laptop and Android or iOS smartphone. Dell Mobile Connect allows you to access multiple devices and applications without dividing your attention.

Powerful processing and Ample Storage

Tackle your workday with the power of the latest AMD processors. Store all your important documents for easy access 512GB SSD

Serious Security

TPM 2.0: The Trusted Platform Module 2.0 is a commercial-grade security chip installed on the motherboard that creates and stores passwords and encryption keys. It verifies that the computer has not been tampered with before booting up and protects your data against external software attacks.

Design You Can Depend On

Ports galore: Your laptop is equipped with an array of ports and an SD card reader to keep you connected to what matters most.

Excellent choice for kids School work or WFH under 35K budget

Reviewed in India on 11 January 2021

Size name: 256GB SSD **Verified Purchase**

I was looking to buy laptop for my kid for sometime now, none of the configuration I looked made sense, either they were slow or too costly. Finally I found right combination with this laptop which was perfect. I am sharing information on why I choose this laptop which might help others. I have 2 decades IT experience.

1. 15.6 inch screen, this is really required. I have worked on 14 inch screen and it becomes difficult for your eye to concentrate and your shoulder bends forward (rounded back posture) as keyboard layout will be small. If you go over 15.6 inch screen, it becomes problem for carrying the laptop. Another plus point of this laptop is, it is matt finish, so not much light reflection from the screen light tubelight/door or windows light.

2. Keyboard layout, because the laptop is 15.6 inch, the keyboard layout is relaxed, there are enough space between keys, so you don't end up making too many typos and keep hitting

"Dell Inspiron 3505 15.6" FHD AG Display Laptop (Ryzen-3 3250U / 8GB / 256 SSD / Integrated Graphics / 1 Yr NBD / Win 10 + Office H&S/ Accent Black) D5"

2 Stars for False information in Product Listing about Office H&S only 30 day trial is given. Screenshot of Dell Website product information page attached.

Edit: Review changed to 4 Star. Synopsis as below:

1) Day1 Contacted Amazon Customer care for false listing. The my advised me to contact Dell Support and shared Toll free number and Work hours.

2) Day2: Contacted Dell the next day, they connected remotely and confirmed that my Dell Laptop is definitely entitled to the Office 2019 OneTime Payment license and shared the invoice. However The MS office 2019 license wasn't reflecting in my Microsoft account and hence advised me to contact MS customer care at 1800 111 100.

Amazon Customer

Terrible experience from the seller and amazon customer care executive

Reviewed in India on 15 January 2021

Size name: 256GB SSD **Verified Purchase**

I have received a damaged product, especially the entire screen has backlight bleeding on all edges. also the speaker issue with muffled sound.

replacement they have arranged for an other techi guy to check who is coming tomorrow to check the laptop.....god knows what he will do tomorrow... Amazon should take these kind of things seriously and replace the product immediately....coz if this issue occurs after one month or one year we can understand...but this happened

When I reached out the customer care executive, from the 1st day itself for a replacement/refund, unfortunately the approach from couple of executives was not much satisfying. The 7days of replacement agreed by the seller and especially fulfilled by amazon, the executives suggesting me to courier by myself with help of DTDC and other courier services, even though the amazon executives came several time before for replacing several product in my location, especially fragile product like laptop, amazon not taking any responsibility for picking up the product from the customer end.

Complete package of features

Reviewed in India on 12 January 2021

Size name: 256GB SSD **Verified Purchase**

Day 1: FHD display is good. Because of 8 gb RAM works really fast. 256gb SSD is an added advantage which keeps the processing fast paced. HD camera good for students. Windows 10 home and MS office per installed. Battery life 7 hours . No heating issues at all.

Worth for this price.

Reviewed in India on 28 January 2021

Size name: 256GB SSD **Verified Purchase**

I bought same configuration laptop from Lenovo ideapad S145 for Rs29990. Performance wise is good, boots in 7 Sec's, Display Sound, Camera All good. Battery backup upto 6 hrs. Only one draw back, Heat vent is given to screen side, because of this heat is coming to keypad side & hurting fingers. Otherwise overall performance is good.

Mahavir

Low quality screen

Reviewed in India on 19 January 2021

Size name: 256GB SSD **Verified Purchase**

When the screen is black, you can see white fades at the edge of the screen (today I saw some more reviews with users having similar issue). I thought maybe it's a one off issue and asked for a replacement. However, after receiving the new product, the screen has some other issue. When the screen is white, you can see a shade of green at one end and a shade of red at the other end of the screen. Going to ask for another replacement. Let's see what happens.

I think apart from the screen other components are okay but it's terrible to have paid 34k and get a defective screen on a brand new laptop.
